About

Our Mission

Our hope is that through sharing personal stories and photos, Homeless Humans of Tacoma will help to inform and enlighten our community of the challenges of homelessness including a deeper sense of the extent of the suffering, pain, loneliness, isolation, depression, hardships and illness the homeless community deals with on a daily basis. With more understanding and awareness, it is our dream that those of us with the ability, will be inclined to get involved and unite as a village of caring citizens who can make a positive difference in the lives of those who struggle to survive on a daily basis by helping to alleviate suffering and maintain their human dignity.

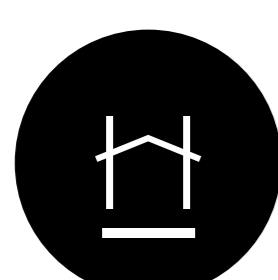

Team

Patti Ramos

Founder / Director / Photographer / Street Doula

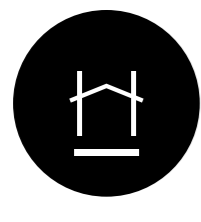

During my first encampment visit, I had the opportunity to meet a few homeless individuals who were willing to share their personal stories with me. They said they felt misunderstood, judged and stereotyped. I asked for their permission to photograph them and share their stories on a Facebook page I created specifically for them as a forum/outlet to humanize homelessness. That very evening after my encampment visit, my Facebook page "Homeless Humans of Tacoma" was born and now has 4100 "likes" and a vast amount of support and recognition. We are a non-profit mission consisting of 100% volunteers.
